

QUESTION

Which sounds better?

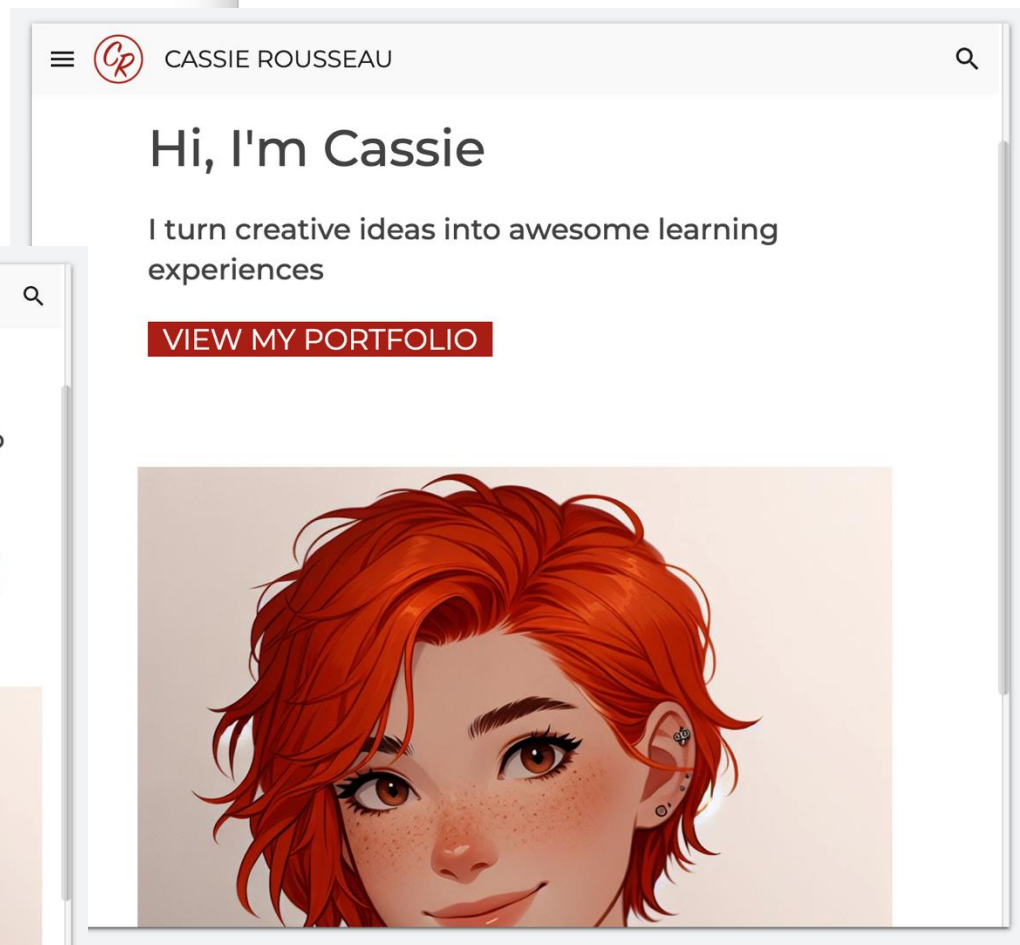

- 1) Waiting to be asked for your portfolio after you submit your resume.
- 2) Including a link to your portfolio in your resume.

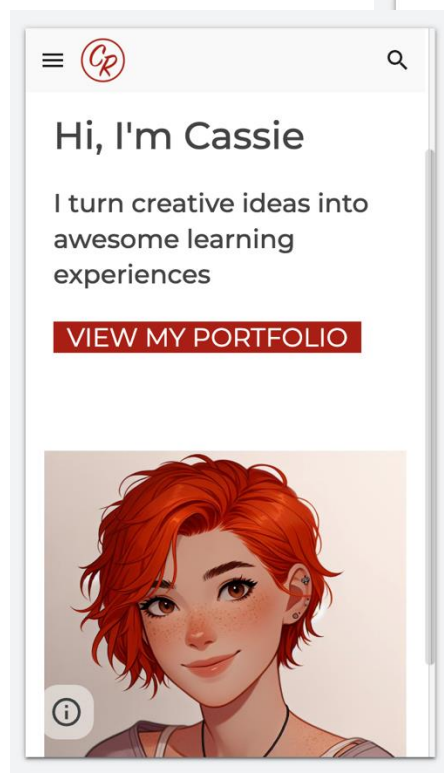

RESPONSIVE DESIGN

- A single website can be viewed on all devices.
- The website layout, images and text are all automatically adjusted to fit the device's screen size.

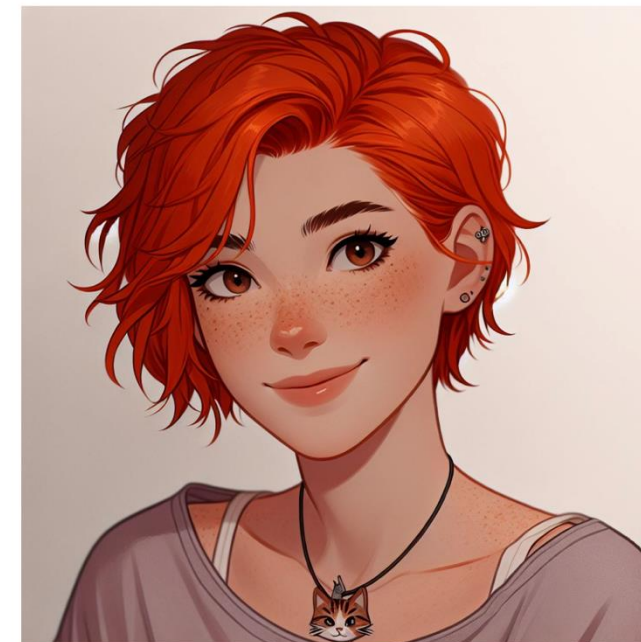

Tablet

Phone

Large Screen

SITE NAVIGATION

- It helps users get around a website by selecting links.
- It is like a map, where a link on one webpage leads a user to another webpage.

VISUAL CONSISTENCY

- A visual appealing website makes it easier for users to navigate.
- Make sure that the layout, colours, fonts, font sizes and spacing are consistent and cohesive.
